I am so glad that I am a client at Total Health Center Dr. Scott is amazing and is very pleasant to work with. The girls in the office are great they have a wonderful attitude which is a plus for me because if I go into a office and I am not greeted kindly I don't plan to go back there again I will find another office to go to. Because I work in reflexology I know that having a positive atmosphere is important for client to feel relaxed before they receive there treatment. I have been Dr. Scott client for a long time and until he retires or tell me that I don't need anymore treatments I will be his client until the doors close :).

Total Health Center is fantastic I have been treated for several issues (my first was a childhood injury were I had fell down a flight of stairs; after many years of just living with the pain, the pain decided to travel up my spine to my neck I started to have headaches every day. I was contacted by the office to do a free analysis after they

told me what the problem was I started the treatment the first adjustment when I woke up the next morning by the middle of the day I notice that I did not have a headache after suffering many years with constant pressure I did not feel it anymore. I have been back in treatment recently because I was in a car accident that shifted my right side. Dr Scott is amazing I thank him for being with me through my journey and I continue to go back for maintenance to keep thing going in the right direction. The staff in the office are always there is help with always a wonderful smile and ready to assist you.

I am pleased to say that the office staff was professional, courteous, and welcoming. My initial visit with Dr. Scott focused on the results of my blood test. The lab report was self-explanatory and I appreciate getting a copy. However I am waiting for Dr. Scott to explain the BioHealth Laboratory results and the Enterolab results. I believe Dr. Scott has a wealth of knowledge about Functional Health. The treatment plan is costly. Upon completion of my initial three month plan, I will seek affordable medical care. I do appreciate all efforts to address my high risk and critical ratings identified by LabCorp. P. S. My friends and family members cannot afford The Total Health System.

★☆☆☆☆ by Michael Williams on 2016-08-11

Total SCAM ! HARDLY anything covered by Insurance. Nobody mentioned ANYTHING about this at my first appt. Instead they reel you in like a fish for the initial couple of discounted appointments and then the Dr. Presents the treatment plan for the next several months. \$ 2700 OUT OF POCKET!! Btw X-rays were taken, however, the only ones the Dr. Showed me, were of my back/ lower spine, which I ALREADY KNEW HAD CURVATURE ETC. HE NEVER showed me the ones of my Fibula n Tibula, that he had said in initial exam, had a problem with the Joint! Hmmm,,,,, I Wonder why?? Ohhhh I Know, because there's nothing wrong with the joint! I'VE SINCE HAD SEVERAL X-RAYS OF MY, FIBULA TIBULA JOINT, LEG, KNEE, JOINTS ETC, AND NOTHING IS WRONG WITH THE JOINT! And Even the Pulse Laser I was hoping would help,,, a nurse set up the laser machine, put 2 units against my knee, and then the cart holding them, rolled away. I had to push my knee back up against them! I wouldn't recommend at all! I've since gone to a different Ortho Surgeon than my first one, and have Legitimate Plan of Action to fix my knee issues. THE ONLY THING DR SCOTT INFORMED ME ABOUT, THAT WAS USEFUL, IS THAT I'M FLAT FOOTED. AND FOR THAT, I'M GRATEFUL. MIKE WILLIAMS

★★★★★ by Pamela Snowden on 2016-07-26

My name is Pamela Snowden and I have been seeing Dr. Scott for almost 4 months. I came to his office seeking answers because the doctors could not figure out what was wrong with me. I spent a lot of time and money trying to find out why I had to be on antibiotics so much. They could only seem to provide a moment of relief, but here at The Total Health Center I have found better health. Before I began my program here I was having issues with: weight, my digestive system, brain fog, fatigue, low energy, and anxiety. My overall health has improved and I have lost 31 lbs thus far. I am looking forward to phase two! If you are looking to better your health, and get the truth--this is the place!

Curious about my exam on my visit. I don't medically know what could cause my knee issue but one would think a if an X-ray was taken it would be taken where the problem existed rather than having X-Ray's of my chest and side view of my body. One thing discovered though I almost have no arch which can cause some of my knee issue but I also could actually have something wrong with my knee and I think an X-Ray would have shown that.

★★★★★ by Elaine Balderson on 2016-03-25

Dr. Scott's program's first phase has proven successful for me in several ways: 1) diabetes blood glucose counts greatly improved with medication reduced to half, 2) weight loss of 30 lbs, 3) no more meds for reflux after many years, 4) more and longer periods of concentration, 5) periods of increased energy. After my health and body declining since '99, I'm excited to now enter my second phase of care in Dr. Scott's program!!!

I learned a little more than I knew before, but always feel the doctor is in a huge rush & doesn't really want to have much of a discussion. Since we're paying so much \$ out of our pockets + this is all new, it'd be nice if he'd sit in his office & have us sit in there.....and take a little more time instead of making it obvious he's trying to push us out the door for the next patient.

I've tried to lose weight unsuccessfully for 40 years. Last year, I started eating clean foods and walking/jogging 3-4 days a week. Lost about 25 lbs. Then no change in my weight. So, I started training for a 8k run and ate less meat and more beans, legumes and soy products. Still no weight loss. I went from being tired every day to extremely exhausted all the time. Dr. Scott did some tests and found that I was not absorbing vitamins and minerals and I was sensitive to gluten. I changed my diet and after 2 12 months I have lost 23 lbs. I feel great. I am sleeping much better. No more constant brain fog. People tell me how much I look - happier and healthier.

★☆☆☆☆ by Susan Burke on 2015-08-25

I had an appointment at 6:00 p.m. on August 20th, for which I received several texts, including 1 on the day of my appointment around 4p.m. My daughter had to wake her sleeping 2 year old to take me to work so my husband could pick me up after his work, since he wanted to be there to talk with the doctor as well. We got to the office around 5:10p.m. only to see a handwritten note on the door stating the office was closed until Monday, August 24th. We sat for awhile, thinking maybe the sign was for people who didn't already have an appointment. Then at 5:19 p.m. I called the office. I got their voicemail stating they would be closed until Monday the 24th. No phone call, no nothing! This was very offputting, especially since the office is the opposite direction as my home is from my job. We waited a little longer & drove home through the rush hour back up very frustrated. Finally at 10:17 a.m. on Monday morning, the 24th, I got a call from the doctor's office. I could hardly believe I was given no clear reason or explanation for all the inconvenience. This was extremely unprofessional &

a huge disappointment! Made considerably worse by the fact that my husband had already paid for my visit weeks beforehand! The real clincher, & reason I was prompted to write this commentary, was that today I actually received an e-mail from the text messaging system, Demandforce, saying that I had recently missed an appointment! You gotta be kidding me!!!!!!

After years of being told there was nothing wrong with me, I found Dr. Mark Scott. He is upfront, honest, and very accessible. I have suffered with severe stomach issues such as pain and nausea, chronic fatigue, and have been bedridden for months at a time. Dr. Scott found a number of issues with my blood work, and gave me hope by saying we could start to fix things! Thank you Dr. Scott! Looking forward to continuing my care with him.

Very informative first seminar of 2. (\$125) Totally different concept and approach than traditional medicine. The Dr. has tons of great info and delivers it in an interesting and understandable manner with good humor. I would have liked future fees for services to be discussed, as no insurance covers this type of service. A water cooler and handouts would have been appreciated. Session 2 will cover a consultant with Dr. and Lab work (\$225, I had to ask) then the Dr. will decide if he can accept you as a client. I have a feeling, this is not going to be cheap, but may really change how I feel and look.

I was told by Dr Scott to bring someone with me to my last appt because he was going to give me alot of information that I would not remember. At my appt, I bought paper to write down information, and I thought the doctor was going to get in depth with my blood test results! I'm so glad that I didn't waste any body's time coming with me. I then was told that he can help me, and what pay option did I want! I did not have the funds, so conversation over! I'm interested in program, but felt like any other doctor's appt, more tests!

In my consultation I was expecting a little more from Dr. Scott. I paid \$125.00 with the hopes of him giving me some hope that we were on the right path. We brought in my daughter's supplements and medicine and he didn't look or even ask about them. He requested us to pay \$225.00 to get some lab work.

★★★★☆☆ by Anon on 2014-11-29

The appointment I had made after attending an information session was not recorded by the office staff, so when I arrived I was told the doctor would squeeze me in, which he did. He gave ample time for assessment. Mainly I found the communication skills and professionalism of the receptionists subpar. The doctor was approachable and knowledgeable.

I have been seeing Dr. Scott for 5 years and always look forward to my visits. The maintenance plan I am on is not only affordable but keeps me limber, mobile and able to exercise. Unless I over do it I remain pain free. His staff is always polite and I am usually in and out within 15 minutes. They also offer a military discount which is greatly appreciated. For anyone who even questions the need for a chiropractor, you need to go to Total Health Center.

I saw Dr. Scott on the Hampton Roads Show speaking about thyroid issues. So I contacted his office and they were very helpful in telling me how I could get in to see Dr. Scott. I attended one of his thyroid seminars and found it very informative. I knew then that I wanted to work with Dr. Scott. He is very knowledgeable and has a great way of explaining things. He shares a lot of his knowledge and that is hard to find.

I am very encouraged by the progress I have made even if I don't quite know where all the 3 month regimen is taking me. It has been a challenge but I find the accountability very helpful in keeping loyal to the program. The results are so satisfying! I'm not always clear what I can eat and what I cannot as I go through the phases so specific lists are always helpful. Using a smart phone with the particular apps is also helpful. I'm very happy to have lost 12 lbs in 8 weeks and look forward to even more weight loss while counting carbs. Ultimately, I am really eager to be healed and once again achieve excellent health!!

We always have a great experience at Total Health Center . . . from the time we walk in the door where we are greeted by Marie and Marilyn . . . Marie lights up and says "Hello! How are you two today?" She always asks how we are doing and about what we've been up to. The entire staff is friendly, personable and professional. Dr. Scott is personable and professional, as well. He is terrific as a chiropractor and is truly interested in you being in the best health you can be. If we ask questions, he gives an honest and professional answer. We refer everyone we know to Total Health Center.

I've suffered with an unexplained digestive illness for 2 yrs, and seen multiple specialists and tried many procedures and medications. Nothing helped. Dr. Scott was able to identify the source of the problem, and following his protocol has helped me more in the past 8 months than all the doctors in the previous 2 yrs. While natural healthcare is a much slower process, I feel like someone has finally put me on the right track to healing.

I found the facility below standards for a medical facility. Spent 10 minutes with Dr then was referred for labs for an additional fee. That should have been disclosed at the 1st meeting what to expect during the initial consultation. Was sent home with a DVD to watch, the DVD had no sound so now I have to drive back there to return it and get one that works. I am looking forward to getting started to better health. I hope this is the palace for that and not just another up sell of their products. Willing to give it a try to see if they have answers.

Dr Scott was very helpful, honest and straight forward with me about all the questions I had and answers I needed. He made me feel comfortable enough to ask and tell him anything I needed to discuss. The fact that he works to "Heal" not "Prolong" ones illness unlike "Other" doctors makes all the difference. I like that he explained to me the difference between Functional Medicine and Alterative Medicine which is what I have followed for years not really Knowing that there is a difference in the two. That being said,if you are tired of being poked and prodded yet never getting any closer to being Healed this is the this is the Go to Doctor to call. Thank you Dr. Scott Blessed Be

★★★★★ by Paula Peddicord on 2013-12-16

Dr. Scott is both knowledgeable and passionate about functional medicine. His enthusiasm is both reassuring and contagious. Though it is totally foreign to my previous way of thinking regarding nutrition, my once backward, ill-informed attempts at trying to be healthy are now slowly, but surely, being replaced by practices that make sense. At 65 years of age, change is not easy for me, but I am excited about finally KNOWING what makes my body function the way it does and why. I am also excited about the prospect of reversing some of my body's disfunction as I continue this journey. I thank Dr. Scott and his wonderful office staff for service that is excellent, knowledgeable, and compassionate. P. Peddicord

My first visit was excellent. I am hopeful that Dr. Scott will be able to help me to improve my health.

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Elspeth Werle on 2013-11-26

Reception staff very friendly; welcomed me by name. Dr. very helpful, willing to answer any and all questions, as well as email me relevant documents concerning my test results which is much appreciated. After my 4th visit to the office, I finally see how the process can benefit me and my health; however, if I'd had more information early on about the possible diagnoses, as well as the potential treatments, I'd have been more informed, in the picture and willing to participate. I have every hope that my time with Dr. Mark Scott will prove to be invaluable.

NPS: 0 1 2 3 4 5 6 7 8 9 10

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Anon on 2013-11-02

Visit was brief - Possibly consider doing these short consults the same day as seminars especially for those who have to travel long distances. Also consider additional staff and pre-arranged packages of labs, lab work etc so that the client doesn't have to go on-line to look up this type of information.

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Cindy Minehan on 2013-10-25

★★★★★ by Edward Gekosky on 2013-08-16

I came to Dr Scott because I was feeling over medicated for diabetes, blood pressure, cholesterol, gout, sleep apnea, etc. My second reason was because I had lower back pain, making a walk of any length difficult at best. On the Functional Medicine side, the promise of Wellness Improvement seems to be working. After 7 weeks of the special dietary approach, I have lost over 10 pounds, and am feeling good. My glucose numbers are substantially down, so I suspect my insulin dosages will soon be reduced by my endocrinologist. On the chiropractic care for my back, the first 7 weeks have me feeling a fair amount improved. Most days this past week, I could do the 2 mile oceanfront walk I like to take, without having to sit down up to five times, as I was doing earlier, when I dared to try the walk. The adjustments, advice, massage therapy, weight loss, all seem to combine to help me get well. I feel like I am heading in the right directions, and have been very happy with my first 7 weeks of the treatments!
